Forecast For West Midlands
Issued by Met Office Exeter
at 1600 on Monday 26 Apr 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Turning more changeable, with frequent showers.

This Evening and Tonight:
Cloud begins to make its way south as the evening progresses, giving a cloudy night. Dry for most, though some northernmost areas will see some patchy rain into the earlier hours. Minimum temperature 2 deg C (36 deg F).

Tuesday:
A cloudy day with a few showers in the morning. These becoming more frequent, organised and at times heavy during the afternoon and into the night. Light winds, strengthening later. Maximum temperature 15 deg C (59 deg F).

Outlook for Wednesday to Friday:
Cloudy with frequent clusters of showers Wednesday. Similar into Thursday and Friday, but with showers becoming more scattered and infrequent. Light winds throughout.
